

# OUR PROGRAMS

Village Arts offers the following programs after school, on weekends, and during the summer:

## THEATRICAL PRODUCTIONS

Elementary and middle school students participate in a variety of Broadway plays throughout the year. While the productions are top-rate, the focus is on process and teamwork.

## CLASSES

Acting, Visual Arts, Dance, and Drama.

We teach classes in all things art from sketch comedy to dance, cardboard costuming to clay.

## HOMEWORK CLUB

We offer a place where students feel safe, inspired, and have fun...while also getting their homework done!

*"Village Arts has been instrumental in my child's happiness and development.*

*She has learned to sing, dance, act, and fully express her creative and artistic talents.*

*A program like this is so vital for the health and success of children."*

*A Place for Everyone!*

## OUR VISION

At Village Arts, we envision a home for all children aged 5 to 105- a place for everyone to experience and explore all art disciplines. We encourage creative collaborations, organically foster meaningful connection, and promote communication and understanding.

## OUR MISSION

We aim to build an inclusive community through teaching performing and visual arts that supports children's personal development, in an environment where families of Valley Village and the greater San Fernando Valley region can connect and create.

## ABOUT US

Village Arts is the heart of the children's arts community in the Valley Village area. We offer year-round arts programs after school, on weekends, and during the summer. We are a safe space where children feel empowered to experiment, grow, and develop.

Our arts center is located at Faith Presbyterian Church of Valley Village and we also offer programs at Colfax Charter Elementary School and other independent schools in the North Hollywood area. Our performance and visual arts programs serve a diverse population of students and we offer scholarships to families in need. We collaborate with local artists to help teach and create programming.

We are currently developing programs in design and technical theatre with the local schools and professional designers.
